

CSGC Razzle Dazzle

Format

The Razzle Dazzle event is a Yellow-tee, 2-man team competition with three distinct parts: **Alternate Shot** (holes 1-6), **Better Ball** (holes 7-12) and **Scramble** (holes 13-18).

Alternate Shot The team decides which partner will tee off on odd-numbered holes and the other partner tees off on even-numbered holes. The same ball must be used during play of hole (unless preferred lie conditions are in effect). *Penalty strokes do not affect the order of play.* See [Rule 22](#).

Better Ball Each partner plays his own ball until holed (but a player need not hole-out if his partner is in with a better net score). Handicap strokes will be marked with dots on the scorecard.

Scramble Each partner tees off and the team chooses the ball position it wants to play from next. The ball position is marked; each partner's ball is placed within one club-length of the marked location, no nearer the hole (except on the green where it must be placed as close as possible to the marked position). This process is continued until the first ball is holed. *No minimum number of tee shots for each partner are required.*

Marker Instructions

In the Alternate Shot phase, the marker writes the gross hole score for the team on the third line, labeled "Team Score".

In the Better Ball phase each player's gross score is entered on the appropriate score-line. If a player picks-up on a hole, record an "X".

In the Scramble phase, record the team strokes for each hole on the third line "Team Score".

Handicapping

The **Alternate Shot** phase team handicap is the average of one-third (for 6 holes) of the individual Course Handicaps for the two partners.

The **Better Ball** handicaps will use 85% of Course Handicaps of the partners distributing handicap strokes over holes 7-12 per the Yellow-tee Stroke Index allocation.

The **Scramble** team handicap is the sum of 35% times 1/3 of the Course Handicap for player A and 15% of 1/3 of the Course Handicap for player B (player A has the lesser of the two Course Handicaps).
